James Njoroge

Applying for: Software Engineering Intern

(+254) 742-552-088 | njorogehjames20@gmail.com | jaymmyx | jaymmyx | jaymmyx.tech

Education

Jomo Kenyatta University of Agriculture and Technology (JKUAT) Nairobi, Kenya

BSc in Mathematics and Computer Science 09/2023 - Present (Expected 2027)

- **Relevant Coursework:** Object-Oriented Programming, Database Systems, Linear Algebra, Numerical Analysis, Computational Mathematics

Moringa School Nairobi, Kenya

Full Stack Software Development Certification 03/2022 - 08/2022

- Mastered component-based architecture and modern responsive design principles

Technical Projects

Seamless Accounting Desktop App *Electron, React, Tailwind CSS*

- Architected a cross-platform desktop application designed to solve real-world financial data entry bottlenecks
- Engineered a user-friendly UI/UX using Tailwind CSS and React to streamline local purchase order processing and invoice management

Opportunity Feed Telegram Bot *Python, Telegram API*

- Developed an automated scraping and notification bot to aggregate tech internship opportunities for Kenyan undergraduate students
- Implemented robust data parsing and real-time delivery mechanisms directly to user devices

Dynamic Portfolio & Blog CMS *Next.js, TypeScript, REST APIs*

- Built a high-performance, mobile-first personal portfolio (jaymmyx.tech) achieving optimal Lighthouse scores
- Integrated seamless Markdown-based content management for technical writing

Experience

Junior Accountant Aetlantiq Group (On-site) 11/2022 - 06/2023

- Managed invoicing and financial data entry, meticulously cross-referencing company totals with the Kenya Revenue Authority (KRA) portal to ensure strict financial compliance
- Queried and maintained a PostgreSQL database to guarantee data integrity for daily operational records
- Streamlined invoice retrieval utilizing Windows CMD and Excel, significantly reducing manual lookup time for the finance team
- Collaborated cross-functionally with Service Delivery and Warehouse Operations to maintain seamless data flow across departments

Skills

Programming Languages: Python, JavaScript / TypeScript, MATLAB
Web & App Frameworks: React, Next.js, Django, Flask, Tailwind CSS, Electron
Databases & Tools: PostgreSQL, MySQL, Git, Windows CMD, Postman, REST APIs
Languages: English (Professional), Swahili (Native)
